

## SEMA at the FENESTRATION BAU in Shanghai, China

**SEMA's attendance at the FENESTRATION BAU trade fair in Shanghai was a great success - the SEMA stand attracted a great number of interested visitors.**

The FENESTRATION Bau took place in Shanghai from November 7-10, 2017. It was the first time that both FENESTRATION China and BAU Congress China were held together following the acquisition of FENESTRATION China by Messe München. As of now, the combined fair will take place annually, alternating between Shanghai and Beijing.

SEMA presented its entire range of software solutions at the Shanghai trade fair. The fields "Timber Construction", "Stair Design" and "Facade & Metal Cladding" were met with great interest so that the SEMA team was busy throughout the entire fair.

Thanks to the good cooperation with our partner 3E in China, we were able to provide a complete solution to all interested visitors - not only in the field of conservatories, but also in the field of prefab houses. Both 3E and SEMA excelled with the extensive range of their products featuring a high level of flexibility.

Mr Gunter Adler, State Secretary with the Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety, visiting the SEMA stand

The SEMA team was particularly pleased to welcome Mr Gunter Adler, State Secretary with the Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety, who visited the SEMA stand and informed himself about the SEMA software solution in a relaxed atmosphere.

SEMA provides software solutions and additional services in the fields of timber and stairs construction, as well as for the sheet metal work. As the world-leader in these sectors, the SEMA program is available in 11 languages and has been used successfully by more than 8,500 customers in 54 languages for over 30 years. Each year, an average of 15 % of the company's turnover is re-invested into the further development of the software solutions so that SEMA customers can always benefit from new and innovative solutions.
