

## Participation of the company Faeton in the exhibition Svoy Dom

*Company Faeton participated in XX Transregional Exhibition Svoy Dom held in the expocenter Russkiy Dom from 28th to 30th of September. Building and production organizations, furniture makers and engineering organizations took part in the show. The participants made their reports at the round table "Application of wood for creation a comfortable urban environment".*

The organizers of the exhibition were the Construction Department and the Association of Wood House building of the Vologda Region. This year the 20th anniversary exhibition was held and involved more than 80 exhibiting companies from St. Petersburg, Vologda, Cherepovets, Yaroslavl, Ivanovo and Tver regions. The organization of the exhibition exactly in Vologda is not accidental, because the Vologda region is the recognized Russia's center of the wooden house building, ranking first in the production of wooden house kits.

The software SEMA was presented at the stand of the company "FAETON", the joint exhibition stand of the Association of Wooden Housing of the Vologda region. Interested visitors could find out more about the main features of the program, the basic idea, the advantages of the professional software. The specialists were able to see the advantages of the im-

provements introduced in the newest version of SEMA 17-2. Such as, first of all, the feature to design in the roof layers, so that the roofing, the lathing and the counter batten can now be designed in all layers of the roof and a significant enhancement of the tools for designing the stair railings. As a result, successful negotiations were held on the supply of software and hardware.
